PROFESSIONAL SUMMARY

Computer Science student at BYU-Idaho graduating in the Fall of 2027 with hands-on experience building C#, Python, and JavaScript applications. I am hard-working, collaborative, and quick to learn new technologies.
Competent with AI-assisted development through effective prompting, code analysis, debugging, and verification of AI-generated solutions. Seeking software engineering internships and entry-level development opportunities.

EDUCATION

Brigham Young University–Idaho — Rexburg, ID **Expected Dec 2027**
Bachelor of Science in Computer Science. Certificates: Functional Programming & Computer Programming

TECHNICAL SKILLS

Languages: C#, Python, JavaScript, SQL, HTML, CSS
Tools & Frameworks: .NET, Git, GitHub, VS Code, MySQL, Firebase, Firestore
AI-Assisted Development: Effective prompting, code analysis, debugging, solution verification, and responsible use of generative AI tools

Core Concepts: Object-Oriented Programming, foundational Data Structures & Algorithms, REST/API fundamentals, debugging, software testing, relational databases

SOFTWARE PROJECTS

VerseSync | JavaScript / HTML / CSS / Firebase / Firestore

https://github.com/eddikane/VerseSync

• Developed an interactive scripture-study web application with weekly reading schedules, direct Gospel Library links, shared study insights, and reply/comment functionality.
• Integrated the Firebase JavaScript SDK and Cloud Firestore to provide full cloud-backed CRUD persistence for shared study insights and replies, replacing localStorage with synchronized cloud data across users and sessions.
• Structured weekly study data and dynamic DOM interactions for filtering, forms, and collaborative study features; used Git/GitHub for version control throughout development.

Soccer Performance Tracker | C#

https://github.com/eddikane/soccer-performance-tracker

• Built a C# console application to capture player statistics, calculate goals-per-game metrics, and classify performance using input validation, conditional logic, reusable methods, and formatted output.

EXPERIENCE

IT Support Representative | Idaho State University | Pocatello, ID 2022
- Provided first-line technical support for hardware, software, and account issues via phone and in person; troubleshot problems and collaborated with IT teams to restore service.

Support Center Specialist | Brigham Young University–Idaho | Rexburg, ID 2022–2023
- Handled high-volume student support requests, identified solutions, documented next steps, and contributed to service-efficiency and team-improvement initiatives.

Delivery Associate | Lead the Way Logistics (Amazon) | Rexburg, ID 2024–2026
- Maintained a 99% on-time delivery rate in a fast-paced environment by prioritizing work, adapting to changing conditions, and consistently meeting accuracy and safety expectations.
